ABOUT

ABOUT US

LIOHER Corp, offers high quality furniture components. Since its founding in 2010, Lioher has geared itself into offering a big range of products and solutions:

- Modern and technologically advanced boards in stock: the LUXE, ZÉNIT and SYNCRON.
- A leading door production program, which uses state-of-the-art cutting and edge banding technologies
- The best kitchen box on the market, the AQUABOX
- A Network of production and distribution facilities in USA with stock processing machinery, logistics, and full equipped showrooms for a better service to our professional clients.

This mix of knowledge and experience is what allow us to build a cabinetry line that truly understands the needs of our customers. Our mission is to become your best partner.

QUALITY

We start by producing our own surfaces (boards) with unique finishes and patented processes. We produce all the doors and drawer fronts with the most advanced cut and edgebanding technologies, barcoding systems for traceability of every item. Finally, we have selected only high quality accessories and hardware from the best brands worldwide. This is our strategy (and the only one possible) to secure a consistent quality standard and long-term satisfaction to our customers.

MADE IN USA

While many companies label their products as Built in USA or Assembled in USA (Meaning sourced outside USA), we are a vertically integrated manufacturer that has invested heavily in US. Our surfaces and doors are produced in the US as well as all the services such as assembly. Our boxes (the Aquabox) are still produced in our European facilities while we work on creating the conditions to begin the production in US.

WARRANTY & SERVICE

We stand behind everything we do, and we offer a convenient way to report any claim or problem.

Our products are rigorously tested and produced upon the strict quality protocols. Our quality standards are certified by industry-recognized testing associations, so we know that our products are built to last. This is why we offer a 5-year warranty on all our products.

We believe a product is only as good as the service that supports it, and we have a great team of experienced cabinet professionals ready to hear your concerns and answer your questions. Most importantly we listen to the input our customers give us and make sure your suggestions are addressed as we continually seek ways to better serve you.
